¹Migratory only, scattered along the coast in small numbers

-Eastern cougar and gray wolf are considered extirpated in Massachusetts.

-Endangered gray wolves are not known to be present in Massachusetts, but dispersing individuals from source populations in Canada may occur statewide.

-Critical habitat for the Northern Red-bellied Cooter is present in Plymouth County.

Melany,

Per my voicemail, my client, Central Rivers Power MA, LLC, needs a MESA letter for its Dwight Project similar to the one that you wrote and Everose Schluter signed this year in June for Indian Orchard Project.

Accordingly, attached please find the following documents that you should review before preparing this letter for Dwight Project:

- A completed MESA Information Request Form.
- A copy of a check for \$50.00 made payable to the "Comm. Of Ma NHESP."
- A description of the Dwight Project area.
- The location of the major components of the Dwight Project.
- Site Plan of the Dwight Project.
- A Google Earth aerial photograph of the Dwight Project from the confluence of the tailrace and the bypassed reach of the Project with the Chicopee River to the **easternmost** portion of the Dwight impoundment.
- A Goggle Earth aerial photograph of the Dwight Project from the confluence of the Connecticut River with the Chicopee River to the Chicopee Falls Dam.
- A Goggle Earth aerial photograph of the Dwight Project from the easternmost portion of the Dwight impoundment to the westernmost portion of the Dwight impoundment (i.e., Dwight dam). This photograph may be referred to as "Impoundment ZoE."
- A Goggle Earth aerial photograph of the Dwight Project from the confluence of

the tailrace and the bypassed reach with the Chicopee River to the spillway of the Dwight dam. This photograph may be referred to as "**Bypassed Reach ZoE**."

- A Goggle Earth aerial photograph of the Dwight Project from the confluence of the tailrace and the bypassed reach with the Chicopee River to powerhouse of the Dwight dam. This photograph may be referred to as "Tailrace Reach ZoE."
- A letter signed by Everose Schluter for the Indian Orchard Project in which Everose supplied me with similar information for the Indian Orchard Project portion of the Chicopee River. We would like a letter in a similar format with the NHESP response divided into three parts, each corresponding to the aforementioned ZoEs.

In the next day or two, I will be mailing to your offices in Westborough, Massachusetts a complete set of these documents, including a check for \$50.00 to cover the cost of performing this research and writing a reply letter.

Upon your review of my e-mail and its attachments, please do not hesitate to give me a call to discuss any open items that Everose or you might have.

In advance, I thank you for your cooperation.

RE: Project Location: Dwight Project; Chicopee River at River Mile 0.9-1.5 Town: CHICOPEE NHESP Tracking No.: 13-32119

To Whom It May Concern:

Thank you for contacting the Natural Heritage and Endangered Species Program of the MA Division of Fisheries & Wildlife (the "Division") for information regarding state-listed rare species in the vicinity of the above referenced site. Based on the information provided, the Division has determined that at this time the Dwight Project sites: **Impoundment ZoE**, **Bypassed Reach ZoE**, and **Tailrace Reach ZoE** are not mapped as Priority or Estimated Habitat.

This evaluation is based on the most recent information available in the Natural Heritage database, which is constantly being expanded and updated through ongoing research and inventory. If you have any questions regarding this letter please contact Melany Cheeseman, Endangered Species Review Assistant, at (508) 389-6357.

Sincerely,

vane Schlute
