Low Impact Hydropower Institute 34 Providence Street Portland, Maine 04103

Attn: Mr. Fred Ayer

Dear Mr. Ayer,

Please find enclosed an application for Low Impact Hydropower Certification ("LIHI") for the Penacook Upper Falls ("PUF") hydropower facility ("the PUF Project) located on the Contoocook River in the Village of Penacook, New Hampshire.

PUF has a request for information pending with the U.S. Fish and Wildlife Service and the New Hampshire Fish and Game Department. Their responses will be forwarded upon receipt.

PUF understands the primary goal of the Low Institute Hydropower Institute's certification program is public benefit and that the LIHI governing board and its agents are not responsible for financial or other private consequences of its decisions. PUF agrees to hold harmless the LIHI, the LIHI Governing Board and its agents harmless from any decision rendered on this application.

A check in the amount of \$2500 is enclosed for PUF's application fee.

LOW IMPACT HYDROPOWER QUESTIONNAIRE

[Excerpted from Part VI, Section E of the Low Impact Hydropower Certification Program. Words in italics are defined in Part VI, Section C, and line-by-line instructions are available in Section D of the program, available on-line in PDF format at http://www.lowimpacthydro.org.

E. LOW IMPACT HYDROPOWER QUESTIONNAIRE

Background Information	
1) Name of the Facility.	The Penacook Upper Falls Hydroelectric Project
2) Applicant's name, contact information and relationship to the Facility. If the Applicant is not the Facility owner/operator, also provide the name and contact information for the Facility owner and operator.	Briar Hydro Associates c/o Essex Hydro Associates 55 Union Street, 4 th Floor Boston, MA 02108 Attn: Richard A. Norman, President V: 617-367-0032 F: 617-367-3796 ran@essexhydro.com & puf@essexhydro.com
3) Location of Facility by river and state.	Contoocook River, New Hampshire
4) Installed capacity.	2,800 KW
5) Average annual generation.	14.5 GWh

3)	2)	J	Α.		(b)	18		17
If the Facility is unable to meet the flow standards in A.2., has the Applicant demonstrated, and obtained a letter from the relevant Resource Agency confirming that demonstration, that the flow conditions at the Facility are appropriately	If there is no flow condition recommended by any Resource Agency for the Facility, or if the recommendation was issued prior to January 1, 1987, is the Facility in Compliance with a flow release schedule, both below the tailrace and in all bypassed reaches, that at a minimum meets Aquatic Base Flow standards or "good" habitat flow standards calculated using the Montana-Tennant method?	Is the Facility in Compliance with Resource Agency Recommendations issued after December 31, 1986 regarding flow conditions for fish and wildlife protection, mitigation and enhancement (including in-stream flows, ramping and peaking rate conditions, and seasonal and episodic instream flow variations) for both the reach below the tailrace and all bypassed reaches?	Flows			18 (a) If the increased or added generation is not yet operational, has the increased or added generation received regulatory authorization (e.g., approval by the Federal Energy	(b) If you answered "yes" to question 17(a), the Facility is not eligible for certification, unless you can show that the added or increased capacity resulted in specific measures to improve fish, wildlife, or water quality protection at the existing dam. If such measures were a result, please explain.	17 (a) Was the existing dam recommended for removal or decommissioning by resource agencies, or recommended for removal or decommissioning by a broad representation of interested persons and organizations in the local and/or regional community prior to the added or increased capacity?

App App Serv the a	Are cata,	IfC	c)	ь)	a)	lf, si	b
If the Facility is unable to meet the fish passage standards in 4.a., has the Applicant demonstrated, and obtained a letter from the US Fish and Wildlife Service or National Marine Fisheries Service confirming that demonstration, that the upstream and downstream fish passage measures (if any) at the Facility are appropriately protective of the fishery resource?	Are upstream and downstream fish passage survival rates for anadromous and catadromous fish at the dam each documented at greater than 95% over 80% of the run using a generally accepted monitoring methodology? Or	If C3 was not applicable:	Was a reason for the Resource Agencies' declining to issue a Mandatory Fish Passage Prescription one of the following: (1) the technological infeasibility of passage, (2) the absence of habitat upstream of the Facility due at least in part to inundation by the Facility impoundment, or (3) the anadromous or catadromous fish are no longer present in the Facility area and/or downstream reach due in whole or part to the presence of the Facility?	The Resource Agencies declined to issue a Mandatory Fish Passage Prescription.	Resource Agencies have had the opportunity to issue, and considered issuing, a Mandatory Fish Passage Prescription for upstream and/or downstream passage of anadromous or catadromous fish (including delayed installation as described in C2a above), and	3) If, since December 31, 1986:	If a Resource Agency Recommended adoption of upstream and/or downstream fish passage measures at a specific future date, or when a triggering event occurs (such as completion of passage through a downstream obstruction or the completion of a specified process), has the Facility owner/operator made a legally enforceable commitment to provide such passage?
	N/A					N/A	Yes

	<u> </u>	
5) Is the Facility in Compliance with Mandatory Fish Passage Prescriptions for upstream and/or downstream passage of <i>Riverine</i> fish?	None prescribed.	
6) Is the Facility in Compliance with Resource Agency Recommendations for Riverine, anadromous and catadromous fish entrainment protection, such as tailrace barriers?	None prescribed.	
	PASS	FAIL
 D. Watershed Protection 1) Is there a buffer zone dedicated for conservation purposes (to protect fish and 	No	
wildlife habitat, water quality, aesthetics and/or low-impact recreation) extending 200 feet from the high water mark in an average water year around 50 - 100% of the impoundment, and for all of the undeveloped shoreline	See Appendix 7	
2) Has the facility owner/operator established an approved watershed enhancement fund that: 1) could achieve within the project's watershed the ecological and recreational equivalent of land protection in D.1., and 2) has the agreement of appropriate stakeholders and state and federal resource agencies?	No	
3) Has the facility owner/operator established through a settlement agreement with appropriate stakeholders and that has state and federal resource agencies agreement an appropriate shore land buffer or equivalent watershed land protection plan for conservation purposes (to protect fish and wildlife habitat, water quality, aesthetics and/or low impact recreation)	Yes See Appendix 7-3	
4) Is the facility in compliance with both state and federal resource agencies recommendations in a license approved shore land management plan regarding protection, mitigation or enhancement of shore lands surrounding the project.	None prescribed.	
E. Threatened and Endangered Species Protection	PASS	FAIL
Are threatened or endangered species listed under state or federal Endangered Species Acts present in the Facility area and/or downstream reach?	Yes See Appendix 8-1	
 If a recovery plan has been adopted for the threatened or endangered species pursuant to Section 4(f) of the Endangered Species Act or similar state provision, 	N/A	

	is the Facility in Compliance with all recommendations in the plan relevant to the		
-	Facility?		
<u>~~</u>	If the Facility has received authority to incidentally <i>Take</i> a listed species through: (i) Having a relevant agency complete consultation pursuant to ESA Section 7 resulting in a biological opinion, a habitat recovery plan, and/or (if needed) an incidental Take statement; (ii) Obtaining an incidental Take permit pursuant to ESA Section 10; or (iii) For species listed by a state and not by the federal	N/A	
	ESA Section 10; or (iii) For species listed by a state and not by the federal government, obtaining authority pursuant to similar state procedures; is the Facility in Compliance with conditions pursuant to that authority?		
4	If a biological opinion applicable to the Facility for the threatened or endangered species has been issued, can the Applicant demonstrate that:	N/A	
	a) The biological opinion was accompanied by a FERC license or exemption or a habitat conservation plan? Or		
	b) The biological opinion was issued pursuant to or consistent with a recovery plan for the endangered or threatened species? Or		
<u> </u>	c) There is no recovery plan for the threatened or endangered species under active development by the relevant Resource Agency? Or		
	d) The recovery plan under active development will have no material effect on the Facility's operations?		
	If E.2. and E.3. are not applicable, has the Applicant demonstrated that the Facility and Facility operations do not negatively affect listed species?	N/A
