Subject: North Gorham FERC Project No. 2519
LIHI Certification Supporting Documentation

Dear Ms. Reed,

Brookfield White Pine Hydro LLC ("BWPHLC") has recently initiated the certification process provided by the Low Impact Hydro Institute ("LIHI") for the North Gorham Hydro Facility FERC Project No. 2519. In accordance with Part VII, Section D of the certification process, LIHI has requested verification from the appropriate regulatory agencies verifying adherence with certain aspects of North Gorham's FERC License and corresponding Programmatic Agreement ("Agreement"). As such, BWPHLC is hereby requesting a letter from the Maine Historic Preservation Commission verifying BWPHLC is in compliance with its FERC License and associated Programmatic Agreement.

We thank you in advance for any assistance you may be able to provide. BWPHLC has been issued a deadline to provide said supporting documentation by February 12th. Please feel free to reach out to me by email at nate.stevens@brookfieldrenewable.com or by phone at (207)755-5610 with any questions. Thank you.

Sincerely,

Nate Stevens

Nate Stevens
Project Manager

Based on the information submitted, I have concluded that there will be no historic properties affected by the proposed undertaking, as defined by Section 106 of the National Historic Preservation Act. Consequently, pursuant to 36 CFR 800.4(d)(1), no further Section 106 consultation is required unless additional resources are discovered during project implementation pursuant to 36 CFR 800.13.

Kirk F. Mohnney

Kirk F. Mohnney,
State Historic Preservation Officer
Maine Historic Preservation Commission
