Mr. Stephen Hickey  
Essex Power Services, Inc.  
55 Union Street, 4<sup>th</sup> Floor  
Boston, MA 02108

Project: MHPC# 0793-93 - Kennebec Water District; Automatic Hydroelectric Plant (FERC No. 2555); application for certification by the Low Impact Hydropower Institute

Town: Various, ME

Dear Mr. Hickey:

Following up on our recent email correspondence concerning the above application for certification, our office believes that the plant is in compliance with the 1993 Programmatic Agreement between our office and the U.S. FERC, which requires that we receive information for Section 106 review for all non-routine maintenance projects proposed for the powerhouse.

Please feel free to contact Robin Stancampiano of our staff if we can be of further assistance in this matter.

Sincerely,

Kirk F. Mohney  
Deputy State Historic Preservation Officer
