Steve - American eel transit up the Salmon Falls River and would be an identified need. Passage for other species has not been triggered and there is no plan or timetable for anadromous fish passage at this project.

Request for LIHI review

John, I wanted to follow up with you to see if you have any comments regarding my below email?

Thank you,
Steve

To:John_Warner@fws.gov

John,

I am working on a LIHI application for SFR Hydro Corporation's Milton hydroelectric project located on the Salmon Falls River in Milton, Strafford County, New Hampshire. Can you comment on the project's compliance with the terms and conditions of its FERC Exemption (Project No. 3984) issued June 30, 1981 and attached for your reference? It is my understanding that fish passage has not been requested at this project to date.

Thank you and please contact me if you need any additional information.

Steve
