FEDERAL ENERGY REGULATORY COMMISSION

Confederated Salish and
Kootenai Tribes of the
Flathead Reservation

Project No. 7086-002
Montana

ORDER AMENDING EXEMPTION FROM LICENSING
(ISSUED AUGUST 22, 1990)

The Boulder Creek Hydro Project has a total installed capacity of 350 kW, which is higher than the authorized capacity of 320 kW in the exemption. 1/ The increase in the generating capacity has minimal effects on the project's hydraulic capacity causing no additional environmental impacts. Therefore, the exemption will be amended to show the project's total authorized installed capacity to be 350 kW.

The Director orders:

(A) The total authorized installed capacity of the Boulder Creek Hydro Project, FERC No. 7086, is 350 kW.

(B) This order is issued under authority delegated to the Director pursuant to section 375.314 of the Commission's regulations. Section 385.1902 of the Commission's regulations provides 30 days from the date of this order for an appeal to the Commission of this action. Filing an appeal does not stay the effective date of this order or any date specified herein.

J. Mark Robinson
Director, Division of Project
Compliance and Administration

1/ The order granting exemption from licensing was issued on
September 23, 1983, 24 FERC 62,352.
